

## SEC-301LFW-254x

(Special Edition Chemical gauge)

Our 'SEC-300LFW' series gauge line is a high quality line of all stainless steel liquid filled gauges. The stainless steel construction resists rust and corrosion while the glycerine filling helps dampen the effects of pulsation and vibration while perpetually lubricating the movement (keeping contaminants such as dirt away from all moving parts). These features will extend the life of the gauge.

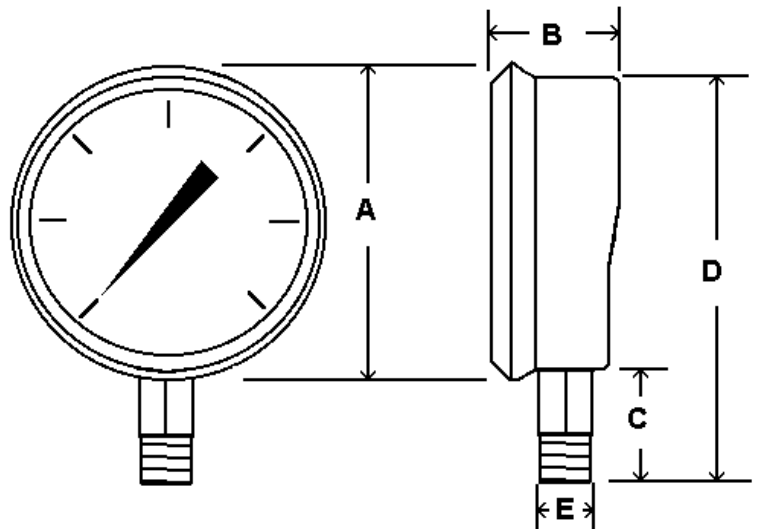

This gauge has been specifically designed with the original equipment manufacturers in mind and are typically used on hydraulic & pneumatic systems in corrosive environments as well as any commercial or industrial application where 316SS wetted parts and glycerine filling is suitable for use.

### SPECIFICATIONS:

- **Dial Size:** 2 1/2"
- **Connection Size:** 1/4"MNPT
- **Stainless Steel Case And Bezel**
- **SS Internals**
- **316 SS Bourdon Tube & Connection**
- **Liquid Filled (Dry Available)**
- **Accuracy :** 1.5 %
- **Dual Scale: PSI & Bar (x100=kPa)**  
(Single Scale available)
- **Ambient temperature:** FILLED: 30°F to 160°F  
DRY: -30°F to 180°F
